

Name: Siyanda Nzama

ST No: 10498929

Project overview

- The goal of this project is to create a useful, eye-catching website for StellarRoof Customs, a small Johannesburg-based car customization company. The website will highlight services, draw in new clients, and give consumers a simple way to make reservations and inquiries.

Project objectives

- Develop a fully functional 5-page website
- Create a user friendly navigation system
- Showcase services and past work effectively
- Enable users to submit enquiries
- Ensure mobile responsiveness and accessibility

Tools and technologies

- Editor: Visual Studio Code
- Languages: HTML, CSS, JavaScript
- Browser Testing: Google Chrome, Microsoft Edge
- Version Control: GitHub

Budget

- Domain name – R150/year
- Hosting – R100/month
- Development – Self developed
- Maitane – R500/month

Testing and quality assurance

- Check all navigation links
- Validate HTML structure
- Test responsiveness on mobile
- Ensure forms display correctly
- Fix bugs and errors

Scope of the project

- 5 web pages (Home, About, Services, Enquiry, Contact)
- Navigation menu across all pages
- Basic styling using CSS
- Functional enquiry form

Risk Management

Risk	Impact	Solutions
Broken links	Poor user experience	Test all navigation
Coding errors	Website not functioning	Debug and validate code
Time delays	Late submission	Follow timeline strictly
Browser issues	Layout problems	Test across browsers
